

55" Samsung UE55JU6400

Product Specification

Resolution	3840x2160	HDMI	4
Refresh Rate	50/60 Hz	Scart	3
Aspect Ratio	16:9	VGA/DVI/Component	0/0/1
Weight	17 kg	Power Consumption	196 W

Product Description

With Samsung's Award-winning best UHD picture quality, this Ultra High Definition TV produces bright clear images, four times the detail of Full HD. Colours come alive with PurColour and images look naturally vibrant, as everything shown on the screen is expressed in brighter, richer, more accurate and true-to-life tones.

Samsung's unique UHD experience gets you closer to the action than ever before. Stunningly sharp images makes for amazing clarity thanks to Samsung's innovative UHD upscaling technology. It converts lower resolution content – such as live TV – to a level of detail that's four times better than Full HD. This means that you can enjoy old favourites and new shows in the highest quality, all of the time. Upscaling is a process through which a lower resolution signal or data source is displayed at a higher resolution. The upscaling process interpolates additional pixels from the source data, and produces a clearer picture on your 4K screen than a non-upscaled image.

For custom, ultra high definition content to bring your screens to life and make the most out of your event, view our [content library](#) for inspiration, or [contact](#) a member of the DBpixelhouse team.
