

## 46" NEC X462UN

### Product Specification

Resolution	1360×768	HDMI	1
Contrast Ratio	3000:1	Display Port In/Out	0
Aspect Ratio	16:9	VGA/DVI	1/1
Weight (kg)	70	Power Consumption	330 W

### Product Description

The 46" NEC 462UN takes your LCD video walls to new levels of impact. Its ultra-narrow bezel allows for a screen-to-screen distance between two neighboring displays of only 7.3mm, a near 450% improvement from NEC's previously revolutionary 33mm P Series displays. The display, which is ideal for digital signage and broadcast applications, can be deployed in video wall matrices of up to 10×10 (100 displays), creating a total surface area of approximately 645 sq ft. The barely discernable transition gap between displays, in addition to EdgeComp™ technology, ensures a homogenous picture across the matrix.

LED and video walls are an effective way to attract interest at an event. DBpixelhouse specialise in LED walls, as well as creating state of the art content to compliment it.
