

55" Samsung D6530

Product Specification

Resolution	1920×1080	HDMI	4
Refresh Rate	50 Hz	USB	3
Aspect Ratio	16:9	VGA/DVI/Component	1/0/1
Weight	17.3 kg	Power Consumption	160 W

Product Description

The initial impact of the Samsung UE55D6530WK is its aesthetically attractive slim frame. The less is more ethos has certainly been used to great effect on this ultra skinny LED design. With a very contemporary frame style that would look in place in even the most minimalistic of front room environments, this is all about style and impact.

Although slight in style, this is not about slight in specification sheets. Using LED backlighting via Lcd tv flat panel technology allows the Samsung 55D6530WK to create amazing depth of blacks and amazing whites levels to achieve a dynamic contrast that is simply off the range. This depth of white through to black means that this hdtv has a colour gamut that is near to replicating the full scale of the colour spectrum. By utilizing Samsungs Wide Colour Enhancer Plus tech and by ingenious algorithm analysis, this 3d LED tv exhibits details and tones which can simply not be displayed on lesser hd tv models.
