

55" Samsung UE55D

Product Specification

Resolution	1920×1080	HDMI	2
Refresh Rate	50-75 Hz	Display Port In/Out	1
Aspect Ratio	16:9	VGA/DVI/Component	1/1/1
Weight (kg)	15.4	Power Consumption	120 W

Product Description

With UED Series displays, the thinnest video wall yet, you don't need to clear out a large area to accommodate it. These ultra-thin displays are designed to take up less space, barely protruding from the wall to blend discreetly into your business environment. The slim, lightweight design of the displays and extensive optional installation accessories, such as wall brackets, help make installation an easy job, even in tight spaces. The unobtrusive displays also feature narrow bezels, which provide a broad viewing area on a near-seamless digital canvas.

LED and video walls are an effective way to attract interest at an event. DBpixelhouse specialise in LED walls, as well as creating state of the art content to compliment it. Take a look at our past creations in our [content library](#) or [get in touch](#) with a member of the team to start designing your unique, digital interactives.
