

Senheiser Wireless Microphone EW345G3

Product Description

Focused and powerful: the heart of this set is the super-cardioid microphone capsule adapted from the successful evolution 800 series. Its immediate and gripping sound is immediately noticeable, while the narrow pattern greatly reduces the risk of feedback. The equalizer integrated into the true diversity receiver also enables fine sound adjustments by the user.

Product Features

- Feedback-rejecting super-cardioid microphone capsule for a gripping sound
- Highest reception quality thanks to true diversity technology
- Scan function identifies available frequencies
- Sturdy metal housing (transmitter and receiver)
- 42 MHz bandwidth: 1680 tunable UHF frequencies for interference-free reception
- Enhanced frequency bank system with up to 24 compatible frequencies
- Ethernet port for connecting to the Wireless Systems Manager (WSM) software for control via computer – this delivers a good overview of monitoring and professional data management for multi-channel systems
- Pilot tone squelch for eliminating RF interference when transmitter is turned off
- Enhanced AF frequency range
- Increased range for audio sensitivity
- Wireless synchronization of transmitter parameter from receiver
- User-friendly menu operation with more control options
- Illuminated graphic display, receiver also shows transmitter settings
- Auto-Lock function avoids accidental changing of settings
- HDX compander for crystal-clear sound
- Transmitter feature battery indication in 4 steps, also shown on receiver display
- Programmable Mute button on transmitter body
- Easy-exchangeable microphone modules from evolution series

-
- Integrated Equalizer and Soundcheck mode
 - Contacts for recharging BA 2015 accupack directly in the transmitter
 - Wide range of accessories adapts the system to any requirement
